## ABOUT US

Mardo - a 100% Australian-owned company - has revolutionised the dressing of windows. We manufacture and sell a huge range of made-to-measure curtains and blinds, including the latest designer collections and innovative new product ranges.

All of our products come guaranteed and quality assured. And with our national distribution network, we can supply anywhere in Australia quickly and efficiently.

## MARDO VERTICAL BLINDS

Control your level of privacy and regulate the amount of light coming into the room with vertical blinds. Ideal for sliding glass doors and large windows, they come in a huge range of decorator colours and patterns, in translucent, dim-out and room darkening fabrics.

### MARDO 10-YEAR 'NO FRAY EDGE' GUARANTEE

Mardo woven-to-size narrow vertical blind fabrics are manufactured using a technique that produces overlapped edges, eliminating edge fraying and ensuring your blinds stay looking good. Most narrow woven fabrics are also machine washable. Available in a range of new and exciting colours.

### MARDO SAFETRAK

The Safetrak single control wand mechanism eliminates the need for potentially dangerous chains and cords in your home, creating a safer environment for both children and pets.

## MARDO SOFTVIEW CELLULAR BLINDS

The unique honeycomb-shaped cells trap air, providing extra insulation for a more constant room temperature and helping to reduce energy bills. Available in light filtering through to room darkening in a range of fashion fabrics and colours.

## MARDO ROLLER BLINDS

Roller blinds complement any window, and offer a sleek, modern appearance. Different fabrics suit different needs, from light-filtering through to room darkening. Available in a huge range of colours and patterns, and an optional sidewinder chain control system.

## MARDO SHEERVIEW BLINDS

Sheerview allows you to enjoy the benefits of natural light during the day with a filtered view of the outside. The unique sheer sunscreen fabric is designed to eliminate glare, reflect UV rays and diffuse light, providing excellent daytime visibility. Available in a range of contemporary colours.

## OMA ELECTRIC MOTOR

Many Mardo products give you the option of having your blinds fully automated, so you can open and close your blinds using a remote control. Selected products can also be integrated with smartwiring to coordinate windows, shutters, blinds, lighting and security.

## MARDOARTWOOD VENETIAN BLINDS

A lightweight and affordable venetian with a composite timber-like slat that ensures a consistent timber grain look and finish.

## VENTEX FABRIC VENETIAN BLINDS

These custom-made fabric blinds combine all the advantages of roller and venetian blinds. Made from 100% polyester yarn, they are both soft and strong, with the advantage that the slats can be washed to keep them looking good. Available in a huge selection of colours, prints and designs.

## ALUMINIUM VENETIAN BLINDS (25mm & 50mm)

Aluminium venetians give you a contemporary edge with a streamlined look. They are ideal for controlling the amount of sunlight entering a room, and adjusting privacy to suit when desired.

## MARDO CALIFORNIAN ROMAN BLINDS

Made with battens over the front of the fabric, so that the fabric doesn't lose its pattern. Available in bright, strong colours or soft and natural tones to suit any décor.

## MARDO KIMONO BLINDS

Fabric is sewn around the battens at the front of the blind, so fabric pattern is seen around the join. The hidden mechanisms produce a beautiful horizontal texture across the blind whether raised or lowered, maintaining structural integrity without an additional blackout lining.

## MARDO SORRENTO ROMAN BLINDS

A blind offering a casual simplicity. Made from a select range of fabrics with a wooden/PVC batten at the back.

## PANEL BLINDS

Innovative and versatile panel blinds create an ideal screen for large windows and sliding or bifold doors. They offer a simple, natural look that is particularly at home in informal areas. Tall vertical panels stack neatly to one side of the window for unobstructed views, and glide effortlessly closed for privacy.

# CURTAINS

“ We have the latest designer collections and innovative new product ranges.”

## MARDO PADDED PELMETS

Conceal curtain headers and tracking systems with practical and good-looking Mardo padded box pelmets. Matching tiebacks help keep curtains neatly tied back during the day.

## SHUTTERS

Mardo new generation shutters are an excellent way to control privacy and airflow. They provide insulation against light and noise, are low maintenance, allergy-free and easy to use. Individually designed, they can be manufactured to suit any size shape of window or door, and are available in a wide range of finishes.

“100% Australian owned  
Mardo is the leading  
manufacturer, wholesaler  
and distributor of innovative  
designer window coverings.”
